SOLVENCY GOVERNANCE

THE 3X CAP & RE-ACTIVATION RULES

How VisionX Capital Guarantees Permanent Solvency while Preserving 100% of Your Team

300%

The 3X Total Earning Cap

Every active package is capped at 3X its value. A $100 pool can earn up to $300 total from Self ROI, Direct, Level, and Binary matching combined.

100%

Permanent Team Retention

When 3X is reached, you **NEVER lose your team**. Your tree placement, sponsors, downline users, and leg volume remain permanently intact.

Package Top-Up Cycle

Upon reaching 3X, re-activate with an equal or higher package to immediately restart your earning meter and continue receiving team bonuses.

What Happens if You Delay Re-activation?

If your package hits 3X and you do not top up for 30 days, incoming team ROI & binary bonuses for that month are flushed. However, your entire team structure is preserved forever, and commissions resume instantly the moment you re-activate!
